

## MANAGEMENT SYSTEMS:

### Environmental Management System

- Our company strictly follows environmental regulations and continuously seeks to minimise its environment impact by regularly revising operating procedures.

### Risk Management System

- To minimise risk, we have implemented procedures to identify and assess risk and then take steps to reduce risk to an acceptable level. As no project is the same, we tailor our risk management plan to each specific project; hence, our risk mitigation strategies are second to none in the industry!

### Corporate Social Responsibility

- The Hedge Man is an egalitarian, equal opportunity employer and we pride ourselves in employing individuals from diverse backgrounds.
- Our love for gardening and keen eye for detail remains at the heart of everything we do and as a company we actively encourage our staff to undergo further training and certifications to further their individual growth and development.

## A SELECTION OF OUR CLIENTS:

And many more...
